

Trịnh Quang Tâm

Full-Stack Web Developer

Phone: (+84) 862 544 627 Email: ng.tammail@gmail.com

Đà Nẵng, Việt Nam Web: tmpms.io.vn GitHub: github.com/tamak4go

OBJECTIVE

Final-year Information Technology student at FPT University (expected graduation Dec 2026) with hands-on experience building full-stack web applications. I designed, built, and deployed my graduation project, TMPMS, end-to-end — from requirements analysis and database design to API development and UI implementation. I bring clear product thinking, a strong independent work ethic, and a focus on delivering working software quickly. Looking to join a team as a full-stack web developer.

EDUCATION

2022 - Dec 2026
(expected)

FPT University Da Nang | Major: Information Technology

PROJECT

2026

TMPMS | FULL-STACK DEVELOPER

Purpose: A management system built end-to-end and deployed solo as a graduation project, live in production at tmpms.io.vn.

- Built backend services and RESTful APIs with **Node.js**.
- Developed the frontend with **React, Next.js, and Vue.js**.
- Designed the database schema and data models using **MySQL and MongoDB**.
- Analyzed requirements and designed the overall system architecture end-to-end.
- Implemented core application features and connected them to the backend via REST APIs.
- Deployed and operated the system in a live production environment; used Git for version control.

WORK EXPERIENCE

Jan 2025

FPT Software | Java Developer Intern

- Developed and maintained Java application modules in a real enterprise environment.
- Debugged, tested, and optimized code on large-scale systems.
- Collaborated with the team following a professional Agile/Scrum process.

SKILLS

Languages: JavaScript, TypeScript, Java

Database: MySQL, MongoDB

Frontend: React, Next.js, Vue.js, HTML/CSS

Tools: Git/GitHub, Postman

Backend: Node.js, RESTful API

Other: Agile/Scrum

LANGUAGES

Vietnamese (native) • English (conversational) • Japanese (basic)
